Wholesale Catalog

We are pleased to present this latest edition of our catalog. We hope that you will look through it carefully and use it often.

This catalog is intended only for those engaged in the florist, landscape gardening and related businesses. We reserve the right to refuse to fill orders for others not entitled to these wholesale prices.

We have 400,000 square feet of modern greenhouses. Today 16 houses are air-conditioned in order to provide for our customers fresh blooming Chrysanthemums and other flowers the year around, even in the hottest summer months. We do not believe that anyone anywhere can offer you as many numbers and varieties of plants, including the rare and unusual, as we do here at Vestal's. You need not shop around. We have them all right here for your convenience. It is impossible to list every item. Ask us about anything you want which you do not find listed.

It takes good merchandise and good treatment to build a business like ours, and we try to give our customers full measure of both. We appreciate the confidence you show by placing your orders with us.

This list cancels all previous quotations, and orders are booked subject to stock being unsold. The prices quoted herein are strictly for the wholesale trade.
